Washi Originals
Die Washi Originals-Kollektion besteht aus den klassischen Washis. Sie sind an ihrem Farbcode zu erkennen, der mit WA- beginnt.

Washi Specials
Alle anderen Washi-Sorten sind die Washi Specials. Der Farbcode fängt mit LX-, WS, PW- oder WP- an.

Textures Originals
Die Unifarben mit 1%, 3% und 5% Transparenz werden in die Kategorie Textures Originals eingestuft.

Textures Specials
Alle anderen Textures-Sorten, einschließlich der Blackout-Varianten, sind Textures Specials.

Aluminium
Hochwertige Streben aus eloxiertem Aluminium.

Aluminium Colors
Diese Kategorie umfasst die verschiedenen Farben, in denen die Aluminiumstreben hergestellt werden können.

Aluminium Wood
Mit einer speziellen Technik werden die Aluminiumstreben mit einem exklusiven Holzfurnier eingelegt.

Individuelles Intervall
Die Lamellen sind mit Streben in Segmente unterteilt. Standardmäßig sind die Intervalle gleichmäßig über die Höhe des Lamels verteilt. Die Größe der Segmente kann jedoch nach Wunsch pro Segment unterschiedlich eingeteilt werden.

Je nach gewünschter Ausführung befinden die Preise sich in der entsprechenden Preistabelle. In der Tabelle gibt es abgerundete Maße. In der Praxis wird ein Produkt millimetergenau hergestellt und berechnet. Infolgedessen ist der Preis oft etwas niedriger. Genaue Preise können mit dem Preisrechner berechnet oder bei Wood & Washi angefordert werden.

Wandträger
Weiße Wandträger werden auf Anfrage zur Montage einer Bannerschiene an der Wand geliefert. Diese sollten alle 75 cm montiert werden.
