

cara 145

Design Roland Meyer-Brühl

During the day, cara 145 is a compact, clearly structured two-seater or – thanks to lowerable armrests – a comfortable daybed. At night, the sofa transforms into a comfortable occasional bed. Pull lightly at the front of the frame, and the comfortable 145 x 200cm sleeping area fold out. Thanks to

the first-class workmanship, cara 145 is also perfectly suitable for permanent use. The streamlined, adaptable design makes it easy to integrate cara 145 into a wide range of different interiors.
