

# moule large – the original since 2003

Design Roland Meyer-Brühl

Move it: moule large impresses with smooth-running conversion mechanisms and luxurious upholstery dimensions. The seats of the sofa easily convert into recliners or into a sleeping area that measures 164 x 216cm. Simply swivelling the seats forward by 90 degrees exposes trays integrated at the sides. The lowered armrests now serve as footrests. All that is left to do now is to put the backrests into the desired position with the aid of a loop and to then separately adjust each headrest – and voila, you're ready to relax. The covers are removable.

# moile Backrest mechanism information

Standard

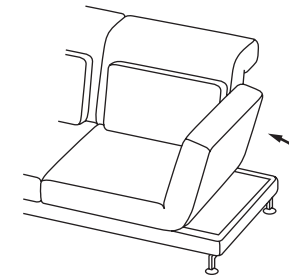

Fabric or leather loop for backrest mechanism activation

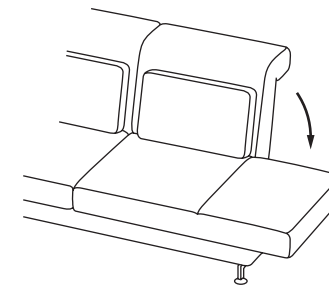

Lifting the **integrated, tiltable headrest**, lowering the side element and swivelling it towards the front and lowering the backrest by pulling the loop makes it possible to choose various reclining angles.

# moile Side element adjustment

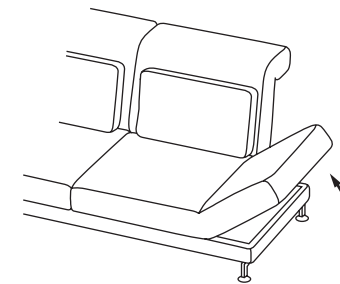

## Basic position

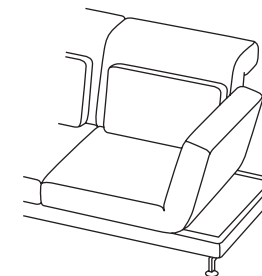

The side element is upright; a quick push towards the inside releases the mechanism; it can then be lowered all the way down until it lies flush on the tray.

A gentle push downwards activates the catch.

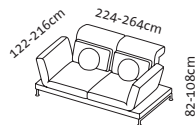

The desired position can now be selected simply by lifting the side element into the desired position...

...with settings ranging all the way back to the basic position.
