

moule medium

the original since 2003

Design Roland Meyer-Brühl

Two seats that can be swivelled around by 90 degrees as well as arm- and backrests that can be lowered with the aid of smooth-running mechanisms ensure that the sofa moule medium is effortlessly convertible and offers luxurious comfort. It converts almost instantly into a recliner or a daybed. On this corner solution consisting of a long chair and an add-on sofa, the outermost seat is a swivel seat, whilst the long chair features a movable side rest element. All backrests are individually adjustable. The long chair is also a stand-alone piece of furniture; its backrest unfolds and can be lowered completely. moule medium's covers are removable.

moûle Backrest mechanism information

Standard

Fabric or leather loop
for backrest mechanism activation

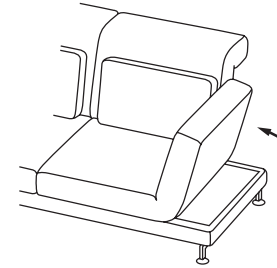

Lifting the **integrated, tiltable headrest**, lowering the side element and swivelling it towards the front and lowering the backrest by pulling the loop makes it possible to choose various reclining angles.

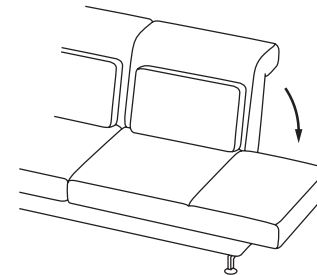

moûle Side element adjustment

Basic position

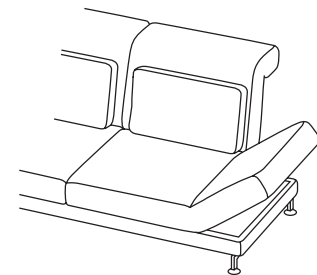

The side element is upright; a quick push towards the inside releases the mechanism; it can then be lowered all the way down until it lies flush on the tray.

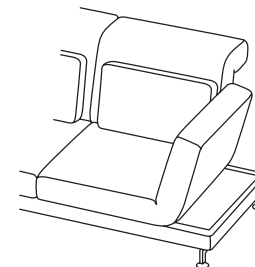

A gentle push downwards activates the catch.

The desired position can now be selected simply by lifting the side element into the desired position...

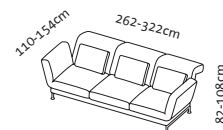

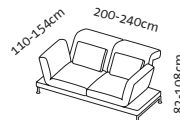

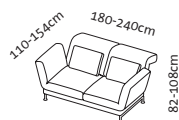

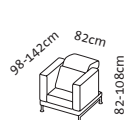

...with settings ranging all the way back to the basic position.
